PLANNING YOUR PROJECT

Geoval Construction will lead you through all stages of planning your building project from finding a building site, referring you to a quality lender, and/or developing your custom home or business building plan.

Personalized meetings are provided to discuss budgets, products, functions, and design, features you would like included in your home or business. We can recommend energy savings features, as well as the latest technology for your home or business. After planning is complete you will receive a quote laying out the details of your project.

CONSTRUCTING YOUR HOME

Throughout the construction of your home you can trust us to operate as a professional team, to answer questions, and to complete your home in a timely, precise manner.

You will be kept informed of the construction process and the time table of your project in order to better plan product buying. It is very rewarding to see all of the planning become a reality at this stage of the building process and to see progress on a daily basis.

FINISHED PRODUCT

After planning and construction is complete, you will have great pride in your new home or business! Geoval Construction offers a 1 year warranty after the project is complete to assure customer satisfaction.

COMPANY PROFILE

Geoval construction is been involved in the construction business since 1998. Our professional team takes special care with each project. From planning the work all the way to an excellent execution, we feel proud of our years of experience.

Our goal is to help you dream become reality. Our project leader personally supervises each stage of your project so that it evolves into a well-coordinated finished project. Our professional staff takes pride in crafting each project with great detail to achieve a work of art that client are able to enjoy for many years to come.

We use both, our own employees and subcontractors to perform the finest skills involved in our projects and remodels. Geoval is fortunate to work with and offer some of the finest workers and subcontractors in the business.

Geoval Construction employs the "team approach" for working with other professionals involved on all projects. We have worked extensively with homeowners, designers, and architects to collaborate on projects and can seamlessly integrate all ideas into a finished project.

AREA OF SPECIALTY

Geoval Construction is a general construction company specializing in commercial and residential constructions. Our complete projects cover a diverse range of buildings from residential homes, offices, financial institutions, industrial buildings, health care facilities, restaurants, tenant improvements, and public facilities. We take a very sincere interest in your lifestyle and individual needs to create the custom home or business that's just right for you.
